Orchids of Merit

150 Broadmoor

1953

San Anselmo, California

The following list of Cattleya type seedlings are generally large for rated pot size, are clean, healthy, and priced very reasonable. All parents used are outstanding in color, form, and productivity, covering all seasons of bloom.

In attempting to standardize, and allowing for variation in different crosses, plants in $1\frac{1}{2}$ " pots have growths 2 to 4 inches, 2" pots up to 6 inches, $2\frac{1}{4}$ " 8 inches and $2\frac{1}{2}$ " pots last growth approximates 10 inches long.

Price $1\frac{1}{2}$ " pots .75 each, 2" pots \$1.25 each, $2\frac{1}{4}$ " pots \$2.00 each, $2\frac{1}{2}$ " pots \$3.00 each. The latter are two growths from blooming size pots.

We wish to pass on to our customers the saving in packing and shipping of larger orders, therefore, you may deduct 10% on orders of \$10.00, 20% on orders of \$20.00 and 25% on all orders of \$25.00 or more.

Brasso special for 1953, our #121 with growths over 12" long, shipped out of pots \$1.00 each. Can be used to make quantity discount. Shipments Express Collect, plants added to cover cost of shipment.

#112 L.C. Trigrey Alba x Labista Alba White, colored lip	2, $2\frac{1}{4}$, $2\frac{1}{2}$ pots
